

Liberals Meet at Macleod

Large Representation From All Parts of Riding, Will Hold Nominating Convention Nov. 14

At a large and representative meeting of the executive of the Macleod constituency Liberal Association, it was decided to hold a nominating convention at Macleod Nov. 14. The meeting was characterized by enthusiasm and optimism.

Hon. Chas. Stewart was present and explained to the executive the new electoral act, urging that Liberals should watch the compilation of lists closely in order to make sure that the names of all Liberals were recorded. He intimated also that the election was bound to take place within the next ten or twelve months and that there was hardly any question of a sweeping Liberal victory. Senators D. E. Riley, High River, and W. A. Buchanan, Lethbridge, were in attendance at the meeting.

New Boundaries

Macleod Constituency has been considerably altered in its boundaries under the redistribution of 1931. Now its northern boundary is township 20, until range 25 is reached when it is carried north to the Bow river, which remains as its northern boundary until Eyremore is reached. Range 17 from that point to township 12 is the extreme eastern boundary. The southern limits start at township 12, range 17 and run west to range 25 extending south from there to Macleod along the Blood Indian reserve to township three range 28 where it jogs over to the Rocky mountains. For instance, Retlaw is in it on the eastern side, so are Barons, Lomond, Enchant, Blackie, Vulcan, Champion, Carmangay, Arrowwood. All the towns along the Macleod line to Aldersyde, all the Crow's Nest from Macleod to Coleman and the villages of Glenwood and Hillspring away down near Waterton Park are included in the constituency. It will be seen it is a widely scattered riding, with a large number of small towns and villages and mining camps.

Kirkcaldy News

Mr. E. M. Hollister was a business visitor in Calgary Saturday.

Mr. and Mrs. Ed. Deman were visitors in the Huxley and Morris districts over the week-end.

Miss Kathleen Colwell left for Three Hills Monday to take her final year at the Bible Institute.

We understand that Miss Lorena Lawrence has undergone an operation for appendicitis. Her many friends wish her a speedy recovery.

Johnnie Roebuck has transported no less than five tractors to various points over the week-end, the farthest trip being to Manyberries, after delivering a brand new tractor to E. M. Hollister.

Mr. Joe Myers of Chatham, Ont., is a visitor in the district looking after his farm interests. Joe is a former resident of this community and is taking the opportunity of renewing old friendships.

Tom Martin, who has been acting section foreman at Vulcan for the C.P.R., has been transferred to this point, taking the place of John Olson, who has been section foreman at this point for the past 16 years. Mrs. Tom Martin and family have taken up residence in the local section house.

The threshing season insofar as this district is concerned is a thing of the past. The year started out very unfavorably owing to drought, but with abundant rains in June hopes ran high for a bumper crop. The terrible heat in July, however, interfered, with the result that the yields were very disappointing and the grades were more so. In fact it is almost as bad as in 1928 insofar as variation of grades is concerned. However, the majority of the farmers are living in hopes that next year will be a more favorable one.

TORIES STILL HAVE BIG MAJORITY

The standing of the various political parties in the House of Commons at the present time is as follows:

Conservatives	135
Liberals	92
United Farmers	10
Labor	4
Independent	2
Progressive	1
Vacant	1

It will therefore be seen that if all the Opposition members combined against a government measure they would still be 26 short.

Little Bow U.F.A. Association Convention Convened at Vulcan

Seven Resolutions Passed—Paul Frederick Again Elected President—Hear Many Speakers During Sessions

On Saturday last the annual convention of the Little Bow U.F.A. Association was held in the Oddfellows' hall at Vulcan. Delegates were present from fourteen locals, ten U.F.A. and four U.F.W.A. The convention was called on short notice and the attendance was not as large as last year, but the enthusiasm in the organization was as much evident as before and busy sessions were listed, one in the forenoon and the other in the afternoon, but increased business and important speakers necessitated the holding of an evening session. Speakers of the day were Mr. O. L. McPherson, Hon. R. Love, Norman Smith, Sidney May and A. Riley.

Most of the delegates registered before noon and were called to order by the vice-president, Mr. J. J. Dann.

Moved by Mr. Miller and seconded by Mr. Russell "that the committees be named from the chair." Carried.

The chairman then appointed Mr. Miller and Mr. Sinclair as the credentials committee and Messrs. Sims, Russell and McRoberts as the resolutions committee.

Delegates then adjourned until 2 p.m.

The afternoon session was under way at two o'clock. The meeting was called to order by the president, Mr. Paul Frederick. The first order of business was the election of a chairman. Mr. Frederick was elected. Routine business followed, the confirmation of committees appointed in the forenoon session; the reading of the minutes of the last meeting. Mr. Love asked why the resolutions passed at last convention were not sent to the annual convention. The secretary replied if they were not it was because the matter was overlooked. The minutes then were adopted as read.

Reading of Financial Report—It was moved and seconded that the report be adopted.

Moved by Mr. Love that all U.F.A. members be given the privilege of the floor. Carried.

The resolutions committee called for resolutions on hand. The following resolutions were read:

Resolution No. 1, from Red Cross local. Reduction in Interest Rates:

Whereas interest rates in this province on mortgages, farm and other sale agreements are too high, and under present conditions place an intolerable burden on agriculture, and

Whereas Mr. Bennett speaking in the House of Commons is reported on page 4375 of Hansard as saying that as this is a matter of contract it comes within the jurisdiction of the province, therefore be it resolved

Resolved that we do urge our provincial legislature to take immediate steps to enforce a substantial reduction in interest rates on these agreements. Carried.

Resolution No. 2, from Berrywater local. Debts contracted prior to 1930 be reduced one-half and interest rates thereon one-half.

Resolved that all debts, bank loans and farm mortgages contracted prior to 1930 be reduced by 50 per cent of the principal, and that interest rates be cut to one-half of the present rate.

Amended by adding thereto "that we ask our Provincial Government to press for this legislation."

Resolution carried as amended.

Resolution No. 3, from Berrywater local:

Resolved that farm mortgages apply to land only and not to improvements placed thereon after the loan was placed on the property and that the paid improvements remain the property of the individual. Carried.

Mr. McPherson was then called upon to speak. He urged the return of the old-time U.F.A. spirit, and the necessity of united action, saying if the party split into several different systems of thought then we are going to split our fighting forces into different units and are going to be defeated as a U.F.A. organization. Work within this organization to attain your ends. Centre your interests and your efforts in maintaining your organization, and whatever changes you propose economically or otherwise you will get them through this organization if you get them. Use your own best judgment as to what the organization should accomplish.

There was intense interest through his entire speech which lasted over an hour and covered a wide range of facts. A further report of Mr. McPherson's speech will be found in another news column.

LOCAL ITEMS

Mr. and Mrs. Wm. Mackintosh were Claresholm visitors on Monday. Miss Olive Robson, of Calgary, was a week-end visitor at the home of her parents, Mr. and Mrs. T. C. Robson. Messrs. Dr. Carson, Roy Walker and Galbraith attended a meeting of the Rockyford Masonic Lodge on Monday evening.

Harry Buck, who has been a guest at the home of Mr. A. Roebuck for the past few days has returned to his home at Clemons, Iowa.

Holiday week-end visitors to Banff from Vulcan were Mr. and Mrs. Wolfe and family, Mr. and Mrs. J. Caruthers, Mr. and Mrs. Wm. Brown and Earl Peterson.

Two recent patients in the Vulcan municipal hospital, Mr. Gordon McKay and Mr. L. Seaman were on the street this week, both after lengthy illness. Friends were glad to see them around again.

The Ladies' Aid of the United Church will hold their annual Fowl Supper on Saturday, October 27th, in the basement of the Oddfellows' hall, from 5 to 7 o'clock. Admission: Adults, 35c; children under 12 years, 20c.

It's not too early to be thinking about your Christmas Greeting Cards. Choose now while the stock is selective. Advocate Personal Christmas Card samples are now ready, and inspection places you under no obligation. Many attractive cards are priced as low as \$1.00 per dozen this season—cheaper than you can buy ordinary blank cards.

The regular meeting of the Reid Hill U.F.A. will be held at the community hall on Friday evening, Oct. 18th, at 8 o'clock. O. L. McPherson, M.L.A., will be the speaker for the evening. A programme has been arranged by the U.F.W.A. of special interest to the young people. All are cordially invited, and a special invitation is extended to the young people.

ment as to what the organization should accomplish.

There was intense interest through his entire speech which lasted over an hour and covered a wide range of facts. A further report of Mr. McPherson's speech will be found in another news column.

Mr. J. R. Love, Provincial Treasurer, then spoke on the finances of the province and showed how the opposition leader is continually spreading misleading statements. It was Mr. Love's first visit to Vulcan and he greatly impressed his audience with a mass of figures that proved fact. His speech was a lengthy one and very interesting. During the course of his speech charts made it easy for those present to follow the figures.

Mr. Norman Smith, editor of the United Farmer, was present and spoke for a short while on the efforts of the publication. Before retiring he introduced Mr. Sidney May, writer for the publication and editor of the Mustard and Cress column.

Mr. Sidney May then spoke on the necessity of increasing the circulation of the United Farmer and the methods used by newspapers to spread the kind of propaganda they want.

The Credentials Committee report made by Mr. Miller advised that there were 24 delegates representing 12 locals present.

Nominations for President—Mr. Sinclair named Mr. Paul Frederick. There being no other nominations Mr. Frederick was declared elected.

Nominations for Vice-President—Mr. McRoberts named Mr. J. J. Dann. There being no other nominees Mr. Dann was declared elected.

Moved by Mr. Sinclair that we make a donation of \$25 to the United Farmer. Seconded by Mr. Eskeland. Carried.

Moved by Mr. Miller that we adjourn until 7 o'clock. Carried.

The convention convened at 7.15. At the opening of the evening session the following resolutions were dealt with:

Resolution No. 4 from Berrywater U.F.W.A. re Mr. O. L. McPherson:

Resolved that this convention express its deep regret at the resignation of Mr. O. L. McPherson as Minister of Public Works, and strongly condemn the despicable tactics of political opponents of the U.F.A. in striking at one of the most able, honest and efficient public servants Alberta has

Vulcan Grandmothers Entertained by W.I.

Forty Vulcan grandmothers and visitors were entertained at the regular monthly meeting of the Vulcan Women's Institute held in the United Church hall on Wednesday afternoon. The meeting was opened by all singing "O Canada", and the repeating of the Creed. Mrs. Broderick, president of the Vulcan group, greeted the guests as they arrived. Mrs. Marshall acted as chairman of the entertaining committee.

First on the afternoon programme was the address of welcome by Mrs. Marshall. Expressions of delight were given the grandmothers on their splendid attendance. Little Miss Mona Allred sang two songs dedicated to grandma. Mrs. Collier gave a reading "A Letter from Mother," accompanied by Mrs. Alred. Mrs. Durston was greatly applauded when, dressed as an old-fashioned grandmother, she sang, "I dreamed that I was Grandpapa." She was accompanied by Mrs. Wm. Campbell on the mandolin. Mrs. Marshall gave a very interesting reading. Other items on the programme included two solos by Miss Rose Hartwig, accompanied by Miss Mable McPherson at the piano; an address to the guests by Mrs. Broderick; duet by Mrs. Grandma Durston and Miss Jean Clarkston "I'll take care of you, Grandma."

Following the programme a dainty luncheon was served. The tables were tastefully decorated with cut flowers, candy baskets and place cards by Mrs. King.

A toast was proposed by Mrs. Peterson and responded to by Mrs. Deal. Miss McLeod, superintendent of the hospital, was called upon for a speech. She was charmingly dressed as an old-fashioned grandmother, to the delight of all present.

Mrs. Leighton won the prize for being the oldest grandmother present, and Mrs. Ritten for being the youngest. Mrs. S. Marshall won the prize for having the most grandchildren. The afternoon was brought to a close by the singing of "Auld Lang Syne."

Grandmothers present were Mesdames N. Speer, H. Daines G. Walker, Leighton, J. N. Johnston, J. Morley, S. Marshall, McCauley, Weale, H. C. Doane, Vaughn, Ritten, Flood, Brown, Durston, Clarkston W. Ritchie Brooks, McIntyre, McKie and Deal.

ANGLICAN CHURCH

This Sunday, October 14th. 11 a.m., Holy Communion, A.Y.P.A. Communion. Sunday School at 2.15. Evening Service at 7.30 p.m. Everyone cordially welcome.

HOSPITAL NOTES

Mrs. Jake Hoffman is a patient. Miss Evelyn Renth is convalescing after an operation for appendicitis.

Fred Mensinger is a patient in the hospital, convalescing from an operation.

Friends of Jack Lucas will be sorry to learn that he is a patient in the hospital.

Church of Christ Notes

Next Sunday at the Church of Christ Mr. Hansell is speaking in the morning on the subject: "When God Speaks," or "Churches with Ears That Are Deaf." The evening subject is the second in a series of messages on Satan entitled "Satan's Four Great Strategies," or the "Man with Two Glass Eyes."

Commencing Wednesday, October 17th, at 8 p.m., there will be held an undenominational Bible Study Course in Teacher Training. This course will continue through the winter months and will aim to give a proper grounding in the Bible as the indestructible Word of God. Some of the subjects to be taken are "the dispensations or ages," "Christ in Prophecy," "The Deity of Christ," "The Church," etc. Mr. E. G. Hansell, B.D., the new minister of the Church of Christ, will be the teacher and lecturer. Mr. Hansell has had a number of years experience as teacher of Religious Education having taught the subject in Bible Colleges and Normal Schools. The course will be held in the Church of Christ. It is free and undenominational. A large enrollment is expected.

O. L. McPherson Speaks to Constituents at U.F.A. Convention

Urges United Action in U.F.A. Party; Address Well Received at Annual Little Bow U.F.A. Party.

Mr. O. L. McPherson, member for the Little Bow riding, representing the U.F.A. party, and recently retired Minister of Public Works, was in attendance at the annual convention of the constituency held here on Saturday last. Mr. McPherson made his first address in the riding since his moving back to his farm, east of town, with Mrs. McPherson and family, and the speech was well received by the delegates of the various locals. The following is a condensed, verbal form of the speech.

"In choosing a subject for today, I came to the conclusion that the best thing I could do would be to remind this convention of the part the U.F.A. has played and must still play in the life of our province; to place before you some of the conditions which actually exist today and to arouse you if possible to the necessity for unified action. Our own people as well as the public realize too little the influence for good the U.F.A. organization has been. It has probably had a greater influence on the life of the province than any other single agency. It has today the possibilities of continuing to be a bulwark against evil, and if its course is rightly steered will go on to its greatest triumph in the course of right. There are influences and agencies at work today that seek to destroy this organization and its work. These attempts are in various forms. Sometimes direct, usually scurrilous; sometimes subtle or misleading, claiming to be that which they are not.

A few examples point to such things as the so-called economic conference of the Liberal party which was advertised as a non-political effort to reach a solution of our many problems. From the newspaper reports, however, it was obviously a novel way of arousing interest and securing attendance to a Liberal party organization meeting. Let there be any misunderstanding about my position here today, let me say that this may be regarded as a political speech without any sugar coating. In fact I suggest that the time has come for some very plain talking and kid gloves will have to be laid aside. You can't defend yourself against a sawed-off shotgun with a perfume atomizer. I do not mean by that that any and all weapons should be used. If I had wanted to fight my enemies with the same sort of weapons they have used against me I have been offered a quantity of material.

Strangers and friends have phoned and come to see me offering to give me information about the private lives of my political enemies, but as I told a meeting in this hall last summer, I have had no experience in carrying on gutter warfare, and I do not propose to get down into the mud now and roll to defend myself.

But I regard plain speaking about some of these things as a legitimate weapon, and I propose in the future to have quite a lot to say about the type of politics that is being played to destroy the U.F.A. government and then leave it to the good sense of the electorate to decide who is telling the truth—my political enemies, the Edmonton Bulletin and Hush on the one side—or myself on the other.

Incidentally I note that these agencies referred to are now to be supplanted by Mr. Solloway and his "prepared propaganda." It is interesting to note that Mr. Solloway has come out in the open in what would seem to be a vindictive effort against the government of this province. It will be remembered that he was prosecuted by this government, sentenced to jail and given a large fine. He has now announced that he has prepared propaganda in an effort to defeat this government although he is a resident of Montreal. When Mr. Howson first became leader he claimed the depression was caused by the Alberta government prosecuting oil brokers and censured the government for the prosecution. His stand at that time has seemingly borne fruit by way of a very practical kind of assistance and support in his well-known campaign to dislodge the government. There are a number of other influences of a very unsavory character which have been used by Mr. Howson in his over-zeal-

Members of the Clover Leaf Rebekah Lodge are sponsoring a Hot Fowl Supper, to be held in the basement of the Oddfellows' hall on Saturday, November 10th. Further announcements will be made later.

An interesting letter was received this week from Miss Jones, R.N., formerly of the local Health Unit staff. She is relieving for three months in a district 20 miles west and 65 miles north of Peace River. Her home town is Notikwan and she is enjoying the pioneer life immensely. The first settlers date back no earlier than 6 or 8 years, and all are full of the enthusiasm so characteristic of a new settlement. Her nursing service is in connection with the Dept. of Health, and her range of duties and territory are widespread. Her method of transportation is anything from a grain box, or a lumber wagon driven by herself, to an early vintage Ford which has a peculiar aptitude for primitive trails. Each day is filled with novel experiences.

ous campaign. Is this province to be swayed by such a campaign and really ruled by vindictive outsiders in an attempt to "get even" with the government which had the courage to take the lead in discouraging wrongful practices that were permitting the fleecing of our citizens? Is Mr. Solloway's present interest one of devotion to the welfare of you people here today whom he would rule by virtue of—what? Money! and prepared propaganda. Money used to subvert the real will and desire of a suffering people, by foisting a group of politicians on the people of this province who have used almost every means imaginable legitimate and illegitimate, to dislodge the government of the province.

I came before the people of Little Bow in their convention a year ago and delivered a message and uttered a warning founded on knowledge and experience that a campaign of frightfulness would come in this province if something were not done to stop it. Some may have thought that I exaggerated and was alarmed at my own personal danger. In fact it was difficult to convince even friends who should have known better, what the real situation was, and I was severely censured for suggesting that the campaign would continue against other members of the government. In fact my suggestion that the Premier would be the next victim was regarded as a disloyal utterance.

But the thing has struck again and a tragedy has been enacted in this province which will be recorded in history as a blight on a civilized people. It has resulted in the removal for a time at least, from public office, and at a time when most needed, of the best man Western Canada has ever produced; one of the most faithful, hard working and accomplished public servants who ever held a position of trust in this country—sacrificed on the altar of political ambition and the lust for power.

Does anyone think that if John E. Brownlee had been a lawyer practising in Calgary or O. L. McPherson farming at Vulcan that they would have been persecuted to the lies, accusations and persecutions which have been hurled at them? And if there is anything against me, why not pursue it and bring it to a conclusion? Why two years of stalling and delaying and adjourning? Is it in the hope of influencing an electorate at an approaching voting time? I wonder. Well, (Continued on Inside Page)

CHARLES CLARK, Proprietor

PASSING POWER

C. W. Peterson in the Farm and Ranch Review, traces the passing of power from one group to another, in comparatively modern history. With the industrial revolution, political powers passed from the land-owning class into the hands of great industrial leaders. Then came another change.

"Mass" production, involving costly mechanization and long-term financing, now demanded the use of capital in industry of fantastic proportions and far beyond the resources of small groups or individuals.

"The day of the great corporation dawned. The captain of finance here enters the picture and is rapidly becoming the dictator to industry.

"Political power and influence have thus passed consecutively from the land owner, then to the industrialist and, finally, to the financier. It is not difficult to forecast the next step in this evolution. It is written in blazing letters for everyone to read. Rigid political partyism is already disappearing and with it the influence of groups on governments. The electorate can no longer be regimented and votes handed over to the "party." Those financially powerful are fast losing their political influence. Supreme power, with all it implies, is passing to the electorate and through it to the state.

"Presently we will witness a consolidation of this power and an increasing tendency to regulate human activities with an eye towards 'the greatest good to the greater number.' We may call this socialism, if we like, but it has, in fact, little to do with political creeds. It would simply be another forward step in the reconstruction of human society, which goes on from century to century, relentlessly but slowly, as human ideals and understanding change through the process of education."

REGULATING WAR PROFITS

Out of the general council of the United Church of Canada came one of the shrewdest resolutions to end wars that has ever been offered. Proposed by Rt. Rev. E.H. Oliver former Moderator, the council requests the Canadian Government to take steps to "prevent, during the war, the exploitation of the exigencies of war to permit the unregulated accumulation of wealth in private hands and that incomes be so regulated that in all cases they shall be in approximate agreement with the pay of the armed forces of the nation."

Boiled down that resolution means that the munition makers, the bacon packers, the steel fabricators, the wheat farmers, the provision wholesalers, and the host of other people who made fortunes out of the last war would be curbed. Instead, they would be placed on an earning basis of \$1.10 a day.

As one of the members of the Chaplain Forces in France, Dr. Oliver knows something of the actual conditions under which the "armed forces" lived.

By taking the private profit from the armaments men and others, such as those who made a good thing out of the last war, the desire for war will be lost to those most anxious to have a conflict. It is a shrewd move, even if it does not meet with any response from Parliament Hill.—Border Cities Star.

THE FARMER'S DILEMMA

Now a farmer in one of the New England states writes to his newspaper protesting against what he calls "unwitting governmental discrimination." He says that a cousin (also a farmer) in a southern state received an order from Washington to plow under 25 per cent. of his cotton crop. The cousin replied that there was not so much as a single boll on his property. He was then informed that as he was on the government list as a cotton planter, it would be appreciated if he would kindly co-operate and plow up 25 per cent of his land anyhow.

Shortly after this puzzling incident it is reported that he received another government communication ordering him to get rid of 25 per cent of his pigs. Again he took his pen in hand and regretfully declared that his farm could not boast even as much as three little pigs. And again he was told that he was on the government list as a pig-breeder and would he please do something about it.

After his correspondence with Washington had been forgotten the Southerner one day received two official-looking envelopes in which he found two handsome checks from Uncle Sam. One was for plowing under cotton he did not grow and the other was for doing away with 25 per cent. of the pigs he did not own.

And now the New England farmer wishes to know how he can get on the same list as his cousin. He can't grow cotton in his neck of the woods, pigs are prohibited by the selectmen, and he does not wish to pull up stakes and go South. So what is he to do?—Christian Science Monitor.

A GOOD JUDGE OF MEN

After having been bled ten or a dozen times by blackmailers, Mr. A. declared in court: "I am a good judge of men and I began to get suspicious." We can imagine that just such a man would be easy prey for the blackmailing gang whose operations at London, Ont., were recently aired in court, the names of the victims being designated only by alphabetical letters. There was a woman in the case, of course, but Mr. A. did not become suspicious of her in time to save him \$11,000. He is a good judge of men but is not conceited enough to boast that he was a good judge of this female of the species. He learned about women from her.

One of the schemes used by the gang was a threat to publish, or a promise to protect from publishing, some slanderous story in a weekly tabloid that furnishes Toronto with scandal, a vile, vicious sheet that should long ago have engaged the attention of the authorities. There were several victims of the racket and their names took up several let-

ters of the alphabet in protecting them against public disclosure. They eventually had to oppose the repeated extortions of the blackmailers, including a solicitor who is now under arrest. Every racket could be met and dealt with outright if the person threatened would at once appeal to the authorities.

GOING ALL THE WAY

(From Vegreville Observer)

And we see that our member, Archie Matheson, is credited with saying that all debts should be cut in half. We are with you Archie to the last drop of blood. We will go even further. If our creditors will cut their claims by one-half we will make it unanimous by cutting out the other half. But, mind you this does not apply to those who owe us, not for a second. We want to collect our subscriptions in full this fall, somehow.

Let us see, though. Didn't Mr. Matheson vote against the motion in the legislature last spring which asked for bondholders to accept half their usual interest charges?

THE FLY IN THE OINTMENT

Dean Inge believes the world is growing better, although some modern things vex his soul, one of them being carmine on a girl's lips and any old kind of loud color on her finger-nails. It is enough to make any good man mad and incline him to despair, but it is only a passing phase. If we admit the right of a girl to beautify, we must admit her right to uglify, if she feels that way about it. The national revenue benefits from the fashion through the tax on cosmetics, so the complaint comes from the Gloomy Dean and not from our Finance Minister.

IS IT A REMEDY

In some respects Mr. Roosevelt is right in saying that his course toward recovery is not different from that of Great Britain. He followed Britain in deflating the currency and renouncing the gold standard, but in the practice of economy with a view to make ends meet he is going the very opposite course, but he advances a cogent argument for his action when he points out that unemployment is wasteful and demoralizing and that public money spent in curing this evil is not ill-spent. It remains to be seen, however, whether his treatment will effect a cure.

A DANGEROUS RACKET

Kidnappers who succeed in getting ransom are up against it. They may demand that the notes be not marked but they have no means of preventing the giver from keeping a record of the ransom bills. Once they begin to issue the bills they are placing themselves in jeopardy. Every note they issue gives the police a clue. As a racket it is not what it was cracked up to be. Bootleggers and hijackers during prohibition days thought they had discovered a new and profitable sphere for their nefarious activities, but their experiments so far have been disappointing. In so low-down a racket they cannot enlist the support and protection of legal officials and police officers.

EDITORIAL NOTES

After serving a term for sedition, a Communist is met at the depot by his comrades who cheer for their hero and sing the Red Internationale. From there he is escorted to a hall where speeches are made demanding the right of free assembly and free speech.

Sailing vessels gave way long ago to steam and are no longer used except as pleasure yachts, so it really makes no difference whether the Endeavor is a faster yacht than the Rainbow. Long ago, too, it was definitely concluded that very large steam vessels were not desirable yet, today, there is a dispute as to whether the Queen Mary or the French ship Normandie is the largest in the world. Each one cost over thirty million dollars and her size is of less importance than her speed and her value as a commercial proposition. There still remains more or less ill-feeling about the races off Newport. It is generally admitted that the Endeavor is the faster craft but that Vanderbilt is a more skillful skipper. Sopwith, himself, admits this. He is a sportsman enough to relieve his crew of any blame for losing the races, but the protests that were lodged have left a bad impression. There is no ground for the belief that the racing committee was partial to the defender. Indeed the belief is that the members of the committee would prefer to see the challenger win.

The Jewish Feast of the Tabernacles which was celebrated last month had its origin at a time when the Jews were an agricultural people. It has been observed for thousands of years although the Jews are no longer an agricultural race. There is more than one farmer who believes they should keep up the festival if for nothing else than that they are not now engaged in agriculture.

A Canadian magazine carries an article warning us against the high-pressure salesmanship of brokers' agents. House-to-house canvassers for the same magazine have developed a technique of their own not excelled by the high pressure methods of the brokers' agents. The new companies' act which went into effect on October 1st, makes illegal the use of the telephone or house to house canvassing for the sale of securities. This applies only to companies operating under federal charters but the provinces will probably bring their charters under the same regulations. If these restrictions had been in effect ten years ago they would have saved many people from being wheedled into speculations by smooth salesmen who stressed the necessity for quick action lest the opportunity to get-rich-quick should slip by.

The Grande Prairie Herald warns that the north country faces dangers similar to those which have proved so distressing to the prairie sections, saying: "Right here in the Peace the same changes are being wrought year after year which have changed the prairie plains from fertile valleys to desert wastes. Conservation of sloughs, lakes, creeks and rivers is just as necessary here as irrigation and other artificial methods are necessary here. Reforestation will not be necessary here provided the practice of cutting down every tree and bush is discontinued. It is time to stop and think—about the future."

WHERE CAN YOU FIND better use for your money?

The Dominion of Canada 1934 Refunding Loan Bonds are now on sale for a limited period only. They are obtainable in two ways: first, in exchange for Victory Bonds maturing this year; second, by cash subscription.

To Owners of Maturing Bonds

You can exchange your Victory Bonds maturing November 1st for Bonds of the new Refunding Loan, and receive an extra cash allowance—provided you convert now.

The absolute safety, the regularity of income and the ready marketability you have enjoyed over the past 15 years are thus again made available to you.

This loan is an essential part of the refunding programme by which Canada is adjusting her war-time debt to present-day conditions. It is a further and necessary step toward the continuance of Canada's business recovery.

To New Investors

Investment funds are accumulating in the world today. Good investments are eagerly sought. As the Refunding Loan is open to cash subscribers as well as in exchange for maturing bonds, this is your opportunity to invest your savings so as to combine the soundest possible investment with vitally important service to your country.

Respond at once, as the subscription list will be open for a limited time only, and all cash applications will be subject to allotment.

Convert or Subscribe Now

Whether you are exchanging your Victory Bonds or buying for cash, you will find in the new bonds the best investment a Canadian can make today. They will give you:

1. Investment in Canada's strongest security, with principal and interest backed by the entire resources and integrity of the Dominion.
2. Maximum regular income; you cannot better the yield anywhere today with comparable safety.
3. The desirable feature of marketability; no other bond will be more readily convertible into cash or more acceptable as collateral.

Apply now in order to secure for yourself the advantages of early subscription. Accept the opportunity to assist a great national undertaking and do your part as a citizen of Canada.

DOMINION OF CANADA 1934 REFUNDING LOAN

DENOMINATIONS—\$100 (in the 15-year Bonds only), \$500 and \$1,000.

MATURITIES AND PRICES—

2 year 2% Bonds at 98.90, yielding 2.57% to maturity.
5 year 2½% Bonds at 98.15, yielding 2.90% to maturity.
8 year 3% Bonds at 97.00, yielding 3.43% to maturity.
15 year 3½% Bonds at 96.50, yielding 3.81% to maturity.

INTEREST BONUS—One half-month's free interest to those who exchange Victory Bonds for the new Bonds of any maturity.

WHERE TO APPLY—Application forms and official prospectus giving full details of the Loan may be obtained from any bank or bond dealer.

PROV GOVT TO BUY CATTLE DRY AREAS

Plans to Purchase 7000 or 8000 Head
Graded in Three Classes

Purchase and shipment of surplus cattle under the provincial government plan has started this week. These purchases will be made from dried out areas.

The cattle will be graded into three classes. The highest grade will be paid for by the department at the rate of one and one-quarter cents a pound; the second grade at one cent and the lowest grade which will include the very thin cattle, for which there is practically no outlet at present will be paid for at three-quarters of a cent. All cattle worth more than the prices being paid will naturally find their way to market through the ordinary channels of trade.

The department expects to handle between 7000 and 8000 head of cattle.

The arrangements provide for the marking of cattle as to ownership at local points. Cattle from the southern part of the dry area will be shipped to Calgary stockyards and those from the northern to Edmonton stockyards.

Payment will be made on the basis of stockyard graders and weights. The cattle will be sold in open market, those of better quality going to farmers and the balance to packers for boneless beef and tannage.

Many tradesmen are today using blank counter check books. For convenience the Advocate is stocking these. They may be purchased single or as many as you want. Three for 25c; cheaper in larger quantities.

H R PRESBYTERY AT CLARESHOLM

George E. Mack Elected Chairman of
Presbytery, First Times Layman
Has Filled Office

G. E. Mack was elected chairman of the High River presbytery of the United church on Wednesday in succession to Rev. R. W. Dalglish. This is the first election of a layman to this office in Alberta, and so far as known at present, the first in any part of the church.

Presbytery passed a resolution of congratulation to Rev. Dr. T. C. Buchanan, who will celebrate his eighty-fourth birthday on October 6. He was for many years superintendent of missions in Alberta.

Given Welcome

W. J. Bell of Brant, was welcomed as a new member of the presbytery. Visitors were Revs. Dr. C. Endicott, Dr. Thos. Powell, R. W. Hibbert and T. H. Lonsdale.

Arrangements were made for the visit of Miss Semmens of Toronto, on October 10 at Nanton, and also the itinerary of Dr. Ridout for the last week in October.

Rev. A. H. Rowe urged group study of the special problems that belong to today, as recommended by the conference in Edmonton.

Encouraging Report

G. E. Mack's report of the missionary and maintenance was encouraging and indicated better prospects for the close of the year. Rev. R. E. Finlay in presenting the pension report, stated that the board had been able to add to capital account this year in spite of the depression.

Adopt Report

The report of the nominating committee was adopted as follows: Rel. Educ., Revs. J. A. Hockin, C.S. Pinder, and lay representatives of High River and Nanton; missions and maintenance, Revs. C. E. Pocock, R. E. Finlay, A. T. Bell, G. E. Mack, W. J. Bell, C. E. Spencer and Okotoks representative; pensions, Revs. R. E. Finlay, P. G. McPherson and lay delegate from Okotoks; publications, Revs. R. W. Dalglish and A. H. Rowe; home missions, Revs. A. Rennie, P. Dawson, Morrison and lay delegate from Blackie; correspondent, Rev. C. S. Pinder; evangelism and social service, Revs. A. H. Rowe, R. G. Watt, R. W. Dalglish and lay delegates from Granum and Vulcan; church property, Revs. W. Morrison, R. G. Watt and Carmangay representative; statistics, Rev. J. A. Hockin; group insurance, Rev. A. T. Bell; church record, Revs. Peter Dawson, W. Morrison and Champion representative.

Arrange Itinerary

The itinerary of Dr. Ridout will be at Champion October 25, Carmangay, 26; High River and Okotoks, 28 (Sunday); Vulcan, 29; Claresholm, 30, and at Nanton on Wednesday, October 31. The next meeting of presbytery will be held at Vulcan in November, when papers will be given by Rev. A. H. Rowe and Rev. J. A. Hockin.

The ladies served luncheon and supper in Harrison hall.

All fields were represented except Okotoks and Turner Valley.

FOOTHILLS HEALTH BOARD MEETING

A Board meeting of the Foothills Health Unit was held last Wednesday with Dr. W. C. McNicol presiding, and the following representatives present—H. E. Denning, Stockland M.D.; G. H. Fox, Dinton M.D.; A. Vine, L.L.D. 160; C. E. Haynes, Parkland Consolidated School; J. A. Schmidt, Blackie; F. L. Watt, High River, secretary. Dr. Bow, Deputy Minister of Public Health and Dr. Saunders, M.O.H., presented reports and commented upon the measures in progress for preventive treatment.

Secretary F. L. Watt reported correspondence with Marquis M.D. in the matter of joining the Unit, no decision having been arrived at as yet, however.

Dr. Bow referred to a recent visit paid to the two Alberta Health Units, by Dr. Farrel and Dr. Chesley of the Rockefeller Foundation. Although the Rockefeller Institute is not now contributing to the Alberta units, it naturally retains interest in the progress of the scheme, as the Rockefeller contribution over three years would be close to \$10,000. The visiting officials commended the districts and their staffs, on the maintenance of the work along sound lines, and considered that the investment was well worth while and that results were most encouraging. This has not been the experience in all "model" units, and for that reason the commendation of the officials is gratifying. Dr. Bow also referred to the keen check being kept on any tubercular suspects within the unit, and to the immunization for scarlet fever by means of the new toxoid. This treatment will be conducted throughout the district as fast as the toxoid be-

comes available to the clinic.

Tuberculosis Examinations

Dr. Saunders included in his general report of the work of the clinic, a special reference to the checkup and care of all tuberculosis suspects.

These cases were selected for examination because of history and contact with T.B. or because of physical characteristics suggestive of chest trouble. The procedure consists of examination of the chest by chest specialists, the tuberculin test and x-ray wherever the necessity of such is indicated.

The doctor stressed the financial saving to contributors to the unit, in this one very important phase of preventive medicine. The tests which ordinarily would cost the individual from \$10 to \$20, can be rendered free because of the co-operation of certain agencies. The Department of Public Health furnishes the services of chest specialists from Keith Sanatorium. The High River Municipal Hospital donates the use of the x-ray machine, developing facilities and all necessary equipment for taking and developing the plates.

Rotary's Christmas Seals

An important contribution to the Tuberculosis work is made by High River Rotary in paying the cost of the films. The fund for this is raised through the sale of Christmas seals in this district, and local purchasers of Christmas seals have the satisfaction of knowing that the money is expended for local benefit and to safeguard the health of the district. Special chest examinations have been given each year since the unit started.

This Year's Work

This year 68 cases were examined, 18 were re-examined to determine the progress on known cases whose previous early diagnosis and subsequent care has prevented the necessity and the expense of hospitalization. The remaining 50 were first examinations. Amongst these were two positive cases and ten potential cases of T.B. The first two will be treated in the Sanatorium. The ten will have further care and supervision, in an effort to prevent further development of the disease. The speaker emphasized that by early diagnosis, the great cost of treatment is eliminated, and the development of new cases is prevented.

Dr. Saunders also reported on the satisfactory reactions from the scarlet fever toxoid. This new form of immunization has so far been limited owing to the small quantity of toxoid available as yet. But as quickly as it can be secured it is being made use of. It is hoped that larger quantities will be available in the not distant future, so that the work can be conducted on a unit-wide scale.

Little Bow Convention

(Continued from Page 1)

ever had. Carried unanimously.

Resolution No. 5:

Whereas, after former Little Bow
 Constituency Conventions some resolu-
 tions passed have not been forward-
 ed to the annual convention, be it

Resolved that all resolutions passed
 at this convention be forwarded to the
 Annual U.F.A. Convention. Carried.

Resolution No. 6, from Barrhill

local:

Whereas there is a movement on
 foot to put a social credit candidate
 in each constituency in the province at
 the next election unless our present
 government undertakes to put in op-
 eration some social credit scheme;

If another party is formed we be-
 lieve the progressive forces will be
 split;

We think some form of social credit
 can be put in operation that would
 relieve the present distress;

Therefore be it resolved that our
 government ask Major Douglas to
 draw some plan that can be put in op-
 eration in Alberta.

After the editor of the United
 Farmer, Mr. W. Norman Smith, ad-
 vised that the executive of the U.F.A.
 had already asked Major Douglas for
 a Social Credit plan applicable to the
 Province of Alberta, it was moved
 "that the above resolution be tabled
 until the U.F.A. executive hear from
 Major Douglas." Carried.

Resolution No. 7, from Reid Hill

local:

"That this convention of the U.F.A.
 Little Bow constituency desires to
 pledge itself to support a system of
 monetary reform, and that in so far
 as the system can be adapted to the
 Province of Alberta the candidates
 nominated for this constituency shall
 pledge his support to this end." Car-
 ried.

Mr. A. Riley from Central Office
 gave a talk on co-operation in which
 he strongly urged that the surround-
 ing locals develop a co-operative or-
 ganization, and made reference to the
 large quantities of twine, coal, fruit,
 fuel and lubricating oils, etc., that
 were being handled through Central
 Office.

Mr. Sinclair urged that longer no-
 tice be given when calling conven-
 tions, and then moved "That a nomi-
 nating convention be called by the ex-
 ecutive as soon as convenient after the

close of the next session of the legis-
 lature." Carried.

Moved by Mr. Miller that the con-
 vention adjourn. Carried.

Board Meeting

Following the regular sessions a
 board meeting was held. The busi-
 ness of this meeting was the election
 of a secretary.

Board Meeting. Election of Sec-
 retary—Moved by Mr. Sims "That we
 invite Mr. W. H. Miller, of Carman-
 gay, to act as secretary." Seconded
 by Mr. Roberts, and carried.

Moved by Mr. Sims that a vote of
 thanks be given Mr. Renkenberger,
 retiring secretary. Seconded by Mr.
 Eskeland and carried.

The meeting then adjourned.

Delegates were registered from the
 following locals: Kirkdale, Reid Hill
 Barrhill, Carman-gay West, Berry-
 water, Plainfield, Barons, Red Cross,
 Milo, Arrowwood. U.F.W.A. dele-
 gates were present from Berrywater,
 Reid Hill, Arrowwood and Milo.

McPherson Address

(Continued from Page 1)

let them. Fair play, decency, and a
 sense of justice are still strong traits
 in the people of this province and the
 long drawn out sickening spectacle we
 have witnessed in this province for two
 years will have its reactions.

Some sections of the press have
 shown an utter lack of any sense of
 the great responsibilities which they
 assume in our modern society. They
 wield a tremendous power and should
 be a bulwark of strength against or-
 ganized evils that would destroy all
 good. But the political misuse of this
 power today on the part of some is
 becoming a menace to society. There
 are so many things on which the pub-
 lic have no other source of informa-
 tion and public opinion quite natu-
 rally is influenced by what they con-
 stantly read.

Without quoting any of the many
 glaring examples of misrepresentation
 of the press in this province I quote
 here the words of Ramsay MacDonald,
 Prime Minister of Great Britain, from
 a London despatch of May 1, which
 describes the situation in Alberta ad-
 mirably:

"At a newspaper society's banquet
 he accused the press of falsifying and
 suppressing news, of advertising tri-
 vialities as 'astounding revelations' and
 of emphasizing some casual episode as
 tremendously sensational. Then he
 declared that news and views were so
 entangled that no reader could get the
 truth. All this," he said, "was weaken-
 ing the fibre of British people's minds
 and making them incompetent to judge
 public affairs."

Among the things that are constan-
 tly played up in sensational manner are
 many of Mr. Howson's duds, such as
 the highway charges which were com-
 pletely exploded, and Mr. Howson
 turned down by the ablest member of
 his group, the late Mr. George Web-
 ster, who referred to the charges as a
 joke and refused to lend his support in
 the house. Yet the press carried a re-
 iteration of these charges almost
 weekly throughout most of last year.
 And then Mr. Howson's charges of
 maladministration at the Claresholm
 school which were shown to contain
 not a shred of evidence to back them
 up. Then there was the charge last
 winter about the government being
 owned by the Imperial Oil Company
 and although he was challenged again
 and again to give his proof in his next
 speech he simply re-iterated his
 charges and offered nothing to sub-
 stantiate them. Right here it should
 be noted that the Calgary Albertan
 took him severely to task for what it
 termed an "ineffectual type of ward
 politics." Since the Albertan has al-
 ways been presumed to be a Liberal
 paper they deserve commendation for
 their fairness and independence in this
 instance.

**F. M. ANDERSON
 & COMPANY LIMITED**

Then there were Mr. Howson's
 charges of interference in the admin-
 istration of justice, in which he asked
 for files to be tabled in the house obvi-
 ously for the purpose of trying to dis-
 credit the government and a respected
 leader of the U.F.A. movement. Al-
 though tabling of these files was de-
 nied for obvious reasons a committee
 was named composed of four opposi-
 tion members and one government
 member, surely more than fair and a
 bold stroke for a government, to ex-
 amine the files and report to the house.
 After a couple of meetings they recom-
 mended to the house that Chief Justice
 Harvey be asked to investigate the
 whole matter. Mr. Howson was pre-
 sent throughout the investigation and
 was given full opportunity to prove
 his charges before the commission.
 However, the Chief Justice rendered
 a judgment in most emphatic language
 declaring that not only had there been
 no interference by the Attorney Gen-
 eral or any member of the cabinet,
 but that the greatest care had been
 exercised in seeing that the matters
 were handled fairly and properly. In
 spite of this strong judgment I was
 unable to find one word of editorial
 comment in any daily paper in the
 province. Draw on your own imagi-
 nation as to what the comment would
 have been had Chief Justice Harvey's
 judgment been unfavorable to the
 government.

These are only a few examples of
 the Liberal leader's unsupported
 charges. To all those who have fol-
 lowed events closely, he has complet-
 ely discredited himself through his re-
 peated unsupported accusations, and
 his obvious readiness to hit below the
 belt politically. The truth is that a
 large part of Mr. Howson's political
 activities are concerned with making
 charges of one sort and another and to
 date not one shred of evidence has
 ever been produced to back up his
 charges. But here I desire to ask a
 question. If any man will resort to
 such methods to gain office—just what
 type of performance could one expect
 from him if he gained that position?
 Think it over.

These are some of the things that
 your organization is facing at this
 time and it is well to remember that
 aside from your U.F.A. paper and
 some able and independent weeklies
 there is no means of combatting this
 vicious and unfair campaign of mis-
 representation. It must be counter-
 acted partly by other means. You as
 citizens of Alberta cannot remain
 quiescent in this fight. It is your
 fight. It is not enough for public men
 who know from experience what is go-
 ing on to denounce this thing and carry
 on the fight, but every man and woman
 who is interested in preventing the

accession to power of gangsterdom
 must enroll immediately and carry on
 the fight. It is imperative if you do
 not wish to see the passing of honest
 and decent administration in this prov-
 ince.

Why have such methods never been
 used before in the history of Canadian
 politics? Because there have usually
 been enough Beauharnois and other
 similar instances to turn the trick.
 Lacking the usual ammunition and
 becoming desperate at the strength of
 the U.F.A. government, a band of un-
 principled political irresponsibles have
 let loose a flood of poison gas that has
 hitherto been banned.

What are you going to do? Listen
 to the propaganda and publicity of the
 enemy in their campaign of crucifixion
 of the men who have served you? Or
 take it upon yourselves, each individ-
 ual a fighting unit, to go out and fight
 for the maintenance of the honest and
 intelligent administration which your
 organization has painstakingly built up
 after a quarter of a century of labor
 and effort?

Any radical changes or improve-
 ments in our monetary system or other
 fundamental regulations will come not
 from the old political parties but
 through the earnest sincere and in-
 telligent action of the people, aside
 from wealth-controlled political par-
 ties.

The Practical and the Ideal

Alberta Pool Elevators is a creation of the agricultural
 co-operative movement and as such is closely knit to the
 families on the land who believe in and act upon the prin-
 ciples of co-operation in order to better their condition.

Commercial success is highly important, but it is to be
 regarded only as a means to an end—the improvement of
 the living conditions of rural people.

The major function of this extensive country and ter-
 minal elevator system owned by Alberta farmers is to give
 support to their natural aspirations for a more secure rural
 tenure.

Both the practical and the ideal sides of the farm move-
 ment are united in Alberta Pool Elevators and on this basis
 a general appeal for support is extended to all grain growers.
